- Experienced in working with relational databases such as Oracle and MySQL.
- Familiar with Agile development methodologies, particularly Scrum

EXPERIENCE

SOFTWARE DEVELOPER

Municipalidad de Palmares 2022-2023

Development of a web application that included key features such as CRUD functionality, role-based user access, and multi-user support. We utilized modern technologies including Laravel, Angular, and PHP for efficient and scalable development, with MySQL for database management and JWT authentication for secure access. My responsibilities included design, coding, and rigorous testing to ensure high-quality results.
